

Evolution and Religion

(01:070:377)

Instructor: Dr. Lee Cronk

Time: Mondays from 9:15am to 12:15pm

Place: Zoom

Format: Seminar

Not every individual is religious, but no one has ever found a human society that does not have some kind of religion. Why is that? Do we have cognitive predispositions that lead us to be religious? Is religion adaptive in some way? Those are the kinds of questions we will explore in this class.
